WAS A DISMAL FAILURE

The Buffalo Switchmen Are Defeated

IN THE STRIKE MATTER

An Attempt to Work the Sympathy Act Among Conductors Fell Through.

BUFFALO, August 24.—At midnight to-night Sweeney, head of the switchmen's order, officially recognized the fact that the strike movement of the switchmen, which was inaugurated twelve days ago, has failed, and in official terms the order for the strike is declared off, and the men will, before daylight, be notified by the local officials that they are now at liberty to get back their places if they can.

By noon today each of the labor leaders, save Arthur and Thurston, were in the city. At 4 o'clock this afternoon the leaders went into conference.

Sweeney immediately set forth at length the position in which he and the men were placed, and at the conclusion of Sweeney's statements Sargent reiterated what he had already said, that his men would not go out on a sympathetic strike unless all railway organizations did so.

Clark stated that the conductors had no grievances, and that while they believed that the demands of the switchmen were just, there would be no strike of the conductors unless it was to redress wrongs.

Conductor Wilkinson for the trainmen informed the switchmen's leaders that he felt the original demands of the switchmen were fair, if ever demands were, but his order could not consent to co-operate by a sympathetic strike.

In these statements Sweeney received an ultimatum.

The conference broke up about 7 o'clock and Sweeney proceeded at once to a conference with local representatives of switchmen, lasting until after 11 o'clock.

The representatives of the press were called into a small room adjoining the conference chamber, and to them Mr. Sweeney announced that a conclusion had been reached by duly authorized representatives of the switchmen, and that it was to the effect that the strike would end at midnight tonight.

Word was carried out towards East Buffalo by messengers, and before dawn the switchmen knew that they were at liberty to again seek work where they could.

It is estimated by Arbitration Commissioner Donovan, who called upon the railway officials in behalf of the men, that nearly 50 per cent of the now idle switchmen will be re-employed.

It is probable the troops will be speedily withdrawn, the local militia being left to furnish such protection as may be necessary.

Pythian Knights.

KANSAS CITY, August 24.—The Knights of Pythias drilling at Camp Shaw began at 9 o'clock this morning and will continue each day of the encampment.

The supreme lodge held its second session today. The work consisted chiefly in considering the various reports of the supreme officers.

Major General Carnahan, of the uniform rank, this afternoon reviewed all Pythian bodies in camp. The hearing of the Knights was highly pleasing to the commanding general.

Short on Cars.

SACRAMENTO, August 24.—Both fruit shippers and railroad men are grumbling about the scarcity of cars. They cannot get half enough of them to fill the enormous demand, and being unable to place their green fruit in eastern markets many growers are drying it. Over 700 carloads of green fruit have been shipped east above the record for the corresponding date last year.

A Track Collision.

NAPA, August 24.—This afternoon on the race track, while warming up for the 3-year-old on the district track, Thomas Smith of Vallejo, driving Columbus, and Clarence Hill of Napa, driving Laconn, owned by Fred W. Loeber of Vineland, collided. Both sulkies were wrecked and the men thrown to the ground. A shaft entered the side of Laconn, piercing a lung, and she will die. Hill was badly hurt.

Ready for the Contest.

PITTSBURG, August 24.—Attorneys Arogo and Irwin, the western lawyers who volunteered their services to the Amalgamated Association in helping to defend the Homestead men against whom charges of murder have been entered, arrived in the city this morning.

Idaho Democrats.

BOISE, August 24.—The Democratic state convention met today and after appointing committees adjourned till tomorrow. The chief interest centers in the contest between Stevenson, Burke and Ballentine for the gubernatorial nomination.

Jumped to Death.

SAN FRANCISCO, August 24.—A fire started in the Central lodging house on Market street this afternoon, when John Courtney jumped from a fourth story window and was instantly killed. Damage from the fire was slight.

Advised Not to Hang McNulty.

SAN FRANCISCO, August 24.—Sheriff Laumeister's attorney has advised him not to proceed with the execution of John McNulty, who is to hang on Friday, while McNulty's appeal is pending in the supreme court.

Death of a Naval Officer.

SAN FRANCISCO, August 24.—Lieutenant T. Dix Bolles of the United States navy died last night of heart disease. He was in charge of the United States hydrographic bureau in this city.

Has Had Enough.

SACRAMENTO, August 24.—Judge W. E. Van Fleet this afternoon tendered his resignation to Governor Markham, the same to take effect on November 1st.

Baseball.

San Jose — San Jose 3, San Francisco 6.

Oakland—Los Angeles 6, Oakland 1.

COULDN'T NOMINATE.

Sixth Delegates Give Santa Barbara the Shake.

SANTA BARBARA, August 24.—The Sixth Congressional District Democratic convention was called to order this morning in Music hall.

In the absence of Chairman Warden, R. F. Del Valle was chosen to preside over the convention. Del Valle, on taking the platform, made a short speech, in which he alluded to Cleveland as the next president, which called forth prolonge applause.

Mayor E. W. Jury of Santa Barbara was chosen vice president and made an address offering the delegates the full use of the city. He urged the nomination of a Democratic congressman with no fusion with the People's party. The convention adjourned at 11.50 until 1 o'clock.

The convention reconvened at 1.30 this afternoon.

The report of the committee on resolutions was adopted and the convention adjourned to meet in Los Angeles on September 10th.

A Smuggler Escapes.

PORT TOWNSEND, August 24.—The famous smuggling schooner Halcyon sailed from Victoria last night with 2500 pounds of opium and sixty Chinese. Agents of the treasury department, who had the vessel under surveillance for several days, reported the facts to the authorities at Washington and orders have been issued by the treasury department notifying all revenue officers on the Pacific coast to be on the alert to intercept the vessel. The crew is supplied with firearms and ammunition. It is supposed the destination of the vessel is the Oregon or California coast. The opium cargo is valued at $30,000, and if its cruise prove successful a profit of $10,000 will be realized. The Halcyon is one of the fastest yachts on the Pacific coast, and custom officers regard the task of overhauling her as very dangerous and prophesy blood would be shed if attempted.

To Regulate Rates.

NEW YORK, August 24.—The transcontinental association devoted the day to a discussion of the reduction of east bound freight rates, the Pacific mail steamship subsidy and the question of adjusting over and under charges and the establishment of a uniform bill of lading. George Olds of the Canadian Pacific failed to arrive, however, so no final action was taken in anything considered, and the meeting adjourned until tomorrow morning. Discussions concerning the reduction of east bound freight rates so roads could compete with American clipper ships sailing from San Francisco to New York, took up most of the afternoon.

Folks Was Guilty.

SAN DIEGO, August 24.—The jury in the case of Sheriff Folks, accused by the late grand jury of misconduct in office, at 11 o'clock tonight brought in a verdict of guilty as charged. The court fixed September 5th as the day for passing judgment on his removal from office. The board of supervisors will then be in session and prepared to fill the vacancy by appointment. The defense gave notice of its intention to move for a new trial. The specific offense proven against Sheriff Folks was the payment to him of 30 per cent commission by a publishing company for advertising contracts for official business.

To Fight Cholera.

LOUISVILLE, Ky., August 24.—Dr. J. N. McCormick of Bowling Green, president of the international conference, states that the board of health has called a meeting of the executive committee to consider the matter of appointing committees to inspect all quarantine stations on the Atlantic and Pacific coasts with a view to ascertaining the efficiency in preventing the introduction of cholera into this country.

Full of Oregon Fog.

ST. LOUIS, August 24.—General J. B. Weaver arrived here this morning from an extensive tour through several northwestern and Pacific states. He gives it as his deliberate judgment that Colorado, Nevada, California, Oregon, Montana, Washington, Idaho and Wyoming will go for the People's party nominees. He expressed the opinion freely that the Republican party was not in the fight.

Was a Trifle Roguish.

NEW YORK, August 24.—A defalcation, which it is said will reach $200,000, has been discovered in the office of Street & Smith, publishers of the New York Weekly, and the crime, the police say, has been fastened upon Alfred J. Price, cashier and bookkeeper of the firm. He is under arrest.

People's Party Organizing.

BOSTON, August 24.—The national executive committee of the People's party has been called to meet in New York tomorrow to establish eastern headquarters and thoroughly organize the party in New York, New Jersey, Pennsylvania, Maryland and the New England states.

Miss Reid to Wed.

SPRINGFIELD, O., August 24.—It is announced at Cedarville, where Whitelaw Reid has been staying, that Miss Ella Reid, his niece, will soon be married at Ophir farm to Robert Carter Harrison, judge of the supreme court of California.

VINCENT IS TO HANG

The Supreme Court Will Not Interfere

IN THE MURDERER'S CASE

By Granting a New Trial on What is Alleged to Be a Technicality.

SAN FRANCISCO, August 24.—The supreme court has denied the application of Dr. C. D. Vincent for a new trial and he will have to hang.

TENNESSEE'S TROUBLES.

The State Will Protect Lessees of Convict Labor.

NASHVILLE, August 24.—The officers of the Tennessee Coal, Iron and Railroad company and board of prison inspectors met again today to consider the answer to the lessees as to orders recently made by the inspectors. After consultation the board of inspectors issued a statement that the board accepts the proposition of the lessees, and orders that convicts be returned to the branch prisons from which they were removed, at the earliest practicable moment.

This means that the state will guard and protect the lessees against violence from mobs, and that the mines will soon be reopened and convicts put to work.

The latest from Coal Creek is that quiet prevails and squads of miners are still being arrested and examined. The trials of some will begin tomorrow at Clinton.

Information comes from Coal Creek that a telegram directly implicating Labor Commissioner Ford had been discovered.

More Trouble Apprehended.

CHATTANOOGA, August 24.—A special to the Times from Atlanta says the miners at Whiteside, Tenn., threaten to attack the stockade at Coal Creek city, Ga., and relieve the prisoners there. Troops have been ordered to hold themselves in readiness to proceed to the threatened points.

Democrats Squabble.

OLYMPIA, Wash., August 24.—The Democratic convention was called to order at 1 o'clock this afternoon by D. C. Gilman, chairman of the state central committee.

After the appointment of the usual committees the convention adjourned.

At 7.30 the convention reassembled and heard reports of committees.

L. K. Church was made permanent chairman.

The report of the committee on resolutions was read. The platform endorses the national platform and nominees of the Chicago convention, pledges reform in the existing tariff laws, opposes the federal election law, and favors a free and unlimited coinage of American silver.

A minority report to the Seattle canal plank was presented. It reads: "We indorse the action of the Democratic house of representatives in refusing an appropriation for Lake Washington, and we condemn the course of Senators Squire and Allen and Representative Wilson in their advocacy of this issue to the detriment of appropriations for the necessary improvement of the rivers and harbors of the state."

Properly Considerate.

PORTLAND, Or., August 24.—At 11 o'clock tonight residents in the vicinity of the plaza were startled by a loud explosion. Investigation showed that a man had set off a dynamite cartridge and blown himself into eternity. His head and shoulders were shattered in a frightful manner, and the upper part of his body bore no resemblance to a human form. It is supposed that he placed a cartridge in his mouth and touched it off. Nothing could be found by which to identify the man. He took the precaution to go into the center of the park, so that nothing would be damaged by the explosion except himself.

Andy Gets Left.

SAN FRANCISCO, August 24.—The will of Andrew Crawford leaves all his property, which is valued at over $600,000, to his wife Frances W. Crawford. The will contains a clause in which the following occurs: "I purposely omit to provide for the boy called by his mother Andy, who is the son of a woman known as Louisa Helliker, and who is alleged by his mother to be my son. I do not acknowledge him to be my son, and declare that he is not my son."

Killed Three of a Gang.

DENVER, August 24.—A special from Grand Junction says: This evening an order for three coffins was received from West Water, Utah, just over the Colorado line. Investigation developed the meagre details of a duel between W. E. Davis and what is known as the Brock gang of thieves. As far as known Davis killed three of the gang and fatally wounded Brock, the leader.

TO PUT Money! IN YOUR POCKET!

U want to no how to save it, and u kant save it by dealing with the old-time regulars whose safe is crowded with ledgers full of bad bils witch u r taxed 100 per cent profit to help pay; u kant save it by spending ur money over the counters ov a house who have a price for each customer, for ur bound to lose eventuall. U can only put money in ur purse by dealing with a house who hav 1 price only, & who sel strictly for kash. U r then shure of getting fair treatment and ur money's wurth; u r shure of the lowest prices, for a kash house haint got a mortgage on ur ranch or ur sole; it duz bizness by virtue ov its own merit without fear or favor, and the prices it quotes must b belo competition else the scheme don't work. We hav tried the straightforward legitimate bizness principle for the past 10 years & hav found it a succes. We ar stil keeping up r rick and forging rite ahed. In vain do our rivals cry out "auchon goods!" "job lots!" "bankrupt stocks!" Tha sound the batle kry that gives us the victory, for the public wil always gather round to the kry of low prices. Our prices ar the best advertisement we can use. A satisfied kustomer is wurth more to us than a big profit, for he always comes back. Wen we sel a paper of English pins for 7c, wich the old timers ask 10c for, we hav made a kustomer. Wen we sell Warner's Health Corset for $1 which sels regular for $1,50 we make another; and so on down the line. They kant touch our regular prices, and wen it comes to specials we r out ov site.

For the following week we hav picked out a few leaders, which for value stand unmatched.

Our Windows Will Be a Revelation in Low Prices.

CAN Rheumatism That Is The Question. BE CURED?
—We Say Most Emphatically—
YES!
The greatest difficulties that honest and legitimate remedies have to contend with is the charlatan and fakir. He comes with blowing trumpet and gilded coach to impose upon the people his worthless nostrums, and when they have been found they lose faith in the good as well as the bad.
We offer you a sure safe and reliable cure to all who are suffering from Rheumatism and Neuralgia—PARADISE OIL AND BITTERS. It never fails when applied as it should be. Many of the best citizens of Fresno county can testify to its merits. Try it. If it does not do what we claim we ask no pay.

No Substitutes
For Royal Baking Powder. The "Royal" is shown by all tests, official, scientific, and practical, stronger, purer, and better in every way than all other Baking Powders. Its superiority is privately acknowledged by other manufacturers, and well known by all dealers.
If some grocers try to sell another baking powder in place of the "Royal," it is because of the greater profit. This of itself is good evidence of the superiority of the "Royal." To give greater profit the other must be a lower cost powder, and to cost less it must be made with cheaper and inferior materials, and thus, though selling for the same, give less value to the consumer.
LOOK with suspicion upon every attempt to palm off upon you any baking powder in place of the "Royal." There is no substitute for the "Royal."

THE other day Henry Watterson invited all protection Democrats to get over into the Republican party where they belonged. He is being taken at his word, for last week the protection Democrats of Jamestown, N.Y., called a convention of their kind in the county and passed resolutions to vote the Republican ticket. The wholesale bolt has created consternation among the Democratic managers of that section.

ORATOR WELBORN of San Diego is the latest aspirant for the Democratic nomination for congress from this district. Mr. Welborn is the elderly gentleman with flowing locks and dramatic air who talked free trade to the Democratic state convention during several hours of its exhaustive session. Mr. Welborn may be an excellent citizen and a first-class Democrat, but his free trade ideas will cook his congressional goose with the voters of this district.

A COUPLE of bull fighters are now in Chicago negotiating with the authorities for the privilege of building an amphitheater in that city in which to conduct bull fights during the World's Fair. It is not likely that their proposition will be accepted, although there is but little more objection to bull fighting than there is to prize fighting, which is tolerated in nearly all civilized countries. We are less familiar with the Spanish brutality, and in that most of the difference lies.

"TALK about foreign markets!" exclaimed the president of one of the largest manufacturers of silver-plated ware in the country. "I would rather have the state of New York for a market for our goods than the whole of the continent of Europe. We are protectionists, not so much on account of benefits derived by our business directly from the tariff, but because we appreciate the superior purchasing power of the American people over that of Europeans, and we know that the superiority is due primarily to protection. We want American workers to receive high wages so that they can afford to buy our goods."

THE QUESTION ANSWERED.

There have been so many assertions and denials in regard to recent development of the tin plate industry in the United States that the average citizen who looks to the newspapers for information must find it difficult to retain a permanent opinion as to whether there is really such a thing as an infant tin plate industry in this country. The statement of an official of a Welsh tin plate makers' association, will doubtless be accepted as unbiased and reliable information.

J. H. Rogers, chairman of the Welsh tin plate makers' association, has just returned to England from the United States, which he visited for the purpose of investigating the status of the American tin plate industry with a view to transferring his plant to this country. Mr. Rogers probably knows as much about tin plate as any other man, and as he is a Welshman who cannot be supposed to cherish any particular regard for the American industry, we are pleased to quote his opinion of that industry and its prospects. In an interview published in the South Wales Daily News, July 13th, Chairman Rogers, in answer to a reporter's questions, expressed himself as follows:

Are there any works in course of erection in America now?

Yes, there are several. I only visited a few. The manufacture of tin plate is, however, very rapidly taking root in the United States, and some very magnificent plants have been erected. One of the works which I visited was the finest which I have ever seen. An enormous steel and tin plate concern is being built in Chicago.

When a Welshman admits that an American tin plate plant is "the finest he has ever seen," it is about time for those who have been falsifying the facts about a great American industry to cease their ranting and enter upon some more fertile fields for the exercise of their peculiar talents. However, this is by no means the most interesting part of the interview. It is when Mr. Rogers comes to the prospects of the coming election that the free trade "reformer" should take especial notice:

Supposing Mr. Cleveland were elected, what do you think would be the effect of his policy?

I think the result would be that the duties would be generally lowered, and that wages would consequently fall. The working classes would, of course, not be willing to remain without work, and manufacturers would have to reduce wages to enable them to compete successfully with other countries. Wages in America are at present double what they are here, but if America adopted free trade they would probably be reduced one-half and become equal to the wages paid here. The question of free trade or protection in America is, therefore, of far more importance to the working class of America than it is to any class in this country. In America the working class earns high wages at present, and the cost of living out there is so little more than it is here that they have much greater comfort and are able to save more rapidly.

It doesn't take a British free trader, like Mr. Rogers, a very long time to tell you what effect free trade will have on a country whose wages are higher than those of other nations. He knows that it can only be to reduce wages, and not having any political reasons for disguising his belief, he is not afraid to say so. The question of free trade or protection in America is essentially a workingman's question, just as this foreign tin plate manufacturer says it is, and if American laborers wish to put free trade at the helm and lower wages into their own pockets there is not the shadow of doubt that they can do so.

An Easy Musical Experiment.

The following beautiful experiment, described by Professor Tyndall, shows how music may be transmitted by an ordinary wooden rod. In a room two floors beneath his lecture room there was a piano, upon which an artist was playing, but the audience could not hear it. A rod of deal, with its lower end resting upon the sounding board of the piano, extended upward through the two floors, its upper end being exposed before the lecture table. But still not a sound was heard. A violin was then placed upon the end of the rod, which was thrown into resonance by the ascending thrills, and instantly the music of the piano was given out in the lecture room.

A guitar and harp were substituted for the violin, and with the same result. The vibrations of the piano strings were communicated to the sounding board; they traversed the long rod, were reproduced by the resonant bodies above, the air was carved into waves, and the whole musical composition was delivered to the listening audience.—New York Telegram.

Should Married Women Teach?

The question comes to us from over the ocean, "Should married women teach?" Well, should married women preach? Should they work, sew, laugh, walk or do anything anybody else does? It takes a long time to get the idea out of the minds of the people that a married woman has no right to step outside the threshold of her own home. Let the question be settled at home. If a woman can teach, and both husband and wife are agreed that she may teach, why shouldn't she teach?

In many respects a married woman is better fitted to teach than an unmarried woman. The general law made by some cities that no married women can be employed in school is unjust. There are many such married persons, whom to remove from the schools would be a misfortune.—Teachers' Institute.

LOTTIE'S ASSAILANT.

He Was a Big Rancher From the Vicinity of Sanger.

The young woman who had the exciting episode in a buggy as detailed in yesterday morning's REPUBLICAN, is familiarly known as Lottie by the young men about town.

Her assailant is a big rancher residing near Sanger. He had been on a mild spree with Lottie and insisted on her accompanying him to his ranch, but she did not want to go. Then he became very rude and engaged in a collar and elbow wrestling match with her.

Being strong and active she succeeded in thwarting his purpose, but at the cost of the sleeve of her dress and various rents in her lace trimmed garments.

Both parties are well known here, and it will be probably a year before the amorous rancher hears the last of it.

THE TRAIN ROBBERS

Arizona Trailers After Them Once More.

MAPS OF THE COUNTRY MADE

Detectives Headquarters Reopened at the Palace—How Beaver Met His Death.

The detectives having lost the train robbers are now hunting down one another's records for bravery.

The Arizona trailers left Visalia on Tuesday morning on horseback with their shooting irons and George Doolittle left at dusk of the same day.

The detectives have established their headquarters at the Palace hotel once more and consultations are held quite often.

Monday was mostly taken up with the making of small maps of the surrounding country, no doubt to be used on the next trip. Sheriff Kay has had many a sleepless night while Sontag and Evans are snoring peacefully by their happy campfire somewhere in the mountains.

The officers at Visalia are doing all they can to send the impression abroad that the chase has been abandoned, and they have requested the newspaper correspondents to say little or nothing about their trips.

Sam Ellis, one of Tulare's supervisors, a man of undoubted bravery, has received a letter postmarked Visalia, August 20, 9 p.m., which contained some fine sand and read as follows:

"Directions—Take freely three times a day; then change & hunt Evans & Sontag."

The writer is known, but as Mr. Ellis looks upon the matter as a joke nothing will be done about it.

It is conceded by almost everybody in interest that Evans and Sontag are in this county, and that it is only a question of time when local officers will avenge the death of Oscar Beaver.

The following is from the Visalia Delta concerning the manner in which Beaver met his death:

Overall and W. H. Fox then went out to find men and soon secured Oscar Beaver and Charles Hall, who agreed to go for $5 each (to be paid by Mr. Thacker) until 5 a.m. when they were to be relieved.

Mr. Beaver said he did not think the robbers would come there, but said he would go with Dan Overall. Overall said that he would not be there, and had nothing to do with it, but was getting guards to accommodate Mr. Thacker.

After the men were armed and ready to go with Mr. Thacker they did not know where to find the place. Overall told them where the house was, but Thacker asked him to go along. At that time Mr. Overall was about to go home and had put his gun away. W. H. Fox was standing by and also went along, his house being near there.

When the party arrived at the gate Mr. Thacker stopped and said he wanted one man to go to the barn and asked which would do so. Both men were willing to go wherever he said. He told them to decide and Beaver said, "Come on, I'll go to the barn." Thacker then said to Hall, "You remain here till I come back and I'll show you where to go."

The two men started toward the barn, Overall and Fox following. Hall remained where he was. When near the corner of the fence, about twenty-five yards from the barn, Overall and Fox heard a noise in the barn and stopped to listen. They next saw a man come out of the barn door and go north alongside the barn, inside the fence, carrying something. Fox went to tell Thacker and Beaver, and Overall went to tell Hall, and advised him to go round on the north side of the lot. Overall remained where Hall had stood until Fox and afterward Thacker came up.

Thacker asked Overall where Hall was. He told him and asked Thacker where Beaver was. Thacker said he was "all right," that he was "lying down among some weeds near the corner of the fence." He added: "The men are in the barn working at something." Overall asked if he thought the men knew any one was outside watching for them. He said, "No, they have not stopped work." Overall asked what he proposed to do. He told Overall to stay there and said he and Fox would go after men enough to surround the place —a large lot embracing three acres planted with fruit trees and containing two houses and a barn.

Overall had no arms and Thacker gave him his pocket pistol. About five minutes after Thacker and Fox left shooting commenced and about fifteen shots were fired. Hall ran down from his position to the corner of the fence by the barn, where Overall and Fox first saw one of the robbers, and close to where Beaver lay. He called out, "What's the matter here? What's up?" Receiving no reply he started back, when Overall, not knowing in the dark who it was, hailed him. He answered, "It's Hall," and Overall went to him and asked him what he saw. He replied that there was a man lying out from the barn and one groaning at the door. Immediately after a cry for help was made. Both started in the direction whence the cries came, but heard nothing more. Overall called to Beaver five or six times, but received no reply.

The two men saw that two horses, hitched to a buggy at the barn door, were down and struggling in their harness, but could hear or see nothing else. It was then proposed that one should go after a doctor. Hall told Overall to go and said that he would stay, as he had a gun.

Overall went but a short distance when he met help coming. He told one of the number to go back to town for a doctor and returned to where he left Hall. Beaver began to cry for help at that time and Overall called to him by name. He answered and said to come out there, as he was dying. Overall replied that he would come in a minute. He then called to the house for some one to come out. Frank Byrd answered Overall, and at his request came out and went to where Beaver was lying. Overall then went to Beaver, followed by Thomas Towery and J. C. Williams, and soon after by others and they carried Beaver away to Mr. Patnot's house, where he afterward died.

It may be said further that before daylight Overall was requested by Detective Hume to organize a posse and start in pursuit of the murderers, as it appeared that no effort was being made to do so. He again refused to interfere with the business of the sheriff's office. He said it was their business to send out such a force, and said he would volunteer to go with a posse.

THE BIG TREE.

More Evidence That It Grew in Fresno County.

John S. Eastwood and William Betteridge have returned from a trip to the Sequoia mills. They had a good time, and say that they killed a rattlesnake eleven feet long and wearing nineteen rattles. This occurred, however, before their demijohn gave out.

They saw also the giant redwood tree which is being cut for the purpose of exhibiting it at the World's Fair as a product of Tulare county. It is four or five miles within the line of Fresno county, and is on section 18, township 13 south, range 28 east. If the tree ever gets to the World's Fair Fresnoans will take care to let the world know that it did not come from Tulare county, and that it grew in Fresno county.

A NEW CORPORATION.

The Paradise Medicine Company Files Articles.

Articles of incorporation were filed in the county clerk's office yesterday by the Paradise Medicine company.

The purpose of the corporation is to purchase from the proprietor the trade mark "Paradise," and the recipes and formula for the compounding and manufacture of certain liniments, salves and medicines sold thereunder; the compounding, manufacture and preparation of the same and the placing on the market and sale of the same, and the purchase or leasing of suitable land and buildings for the carrying on of said compounding, manufacture and sale.

The principal place of business is in this city and the term of the corporation fifty years. The capital stock is $100,000, divided into 100 shares of $100 each. There are seven directors, each of which has subscribed to twenty-five shares, as follows: J. W. Ferguson, A. J. Weiner, J.C. Herrington, J. B. Hill, J. H. Brown, and G. A. Wilson.

The Tulare Repair Shops.

At last the old machine shops at Tulare have been removed to Bakersfield, with the exception of the machinery requisite for the repair shops here. The material of the old building and the machinery are sidetracked here, and ground is being staked off south of the roundhouse where they will be located.

EXPENSIVE RAILINGS

Mrs. Marceau Wants $25,000 Damages.

WERE ILLEGALLY REMOVED

She Alleges She Received Permission From the City to Erect the Railings.

An amended complaint has been filed by Messrs. Grady & Gallagher in the case of Amanda J. Marceau and Theodore C. Marceau vs. the City of Fresno. The original complaint asked for an injunction restraining the defendant from further interfering with the railings around the Fiske block and for $1000 damages for the injury already done at that time.

In the amended complaint S. H. Cole, Firman Church, J. C. Herrington, William Fahey, B. T. Alford and J. D. Jones are made co-defendants.

The complaint sets out by stating that the defendants S. H. Cole, Firman Church, J. C. Herrington, William Fahey and B. T. Alford are the duly elected, qualified and acting board of trustees of said city of Fresno, and said defendant, J. D. Jones, is the duly elected, qualified and acting street superintendent of said city of Fresno.

On or about the 2nd day of September, 1889, while said Amanda J. Marceau was the entire and absolute owner in her own seperate right of said described pieces or parcels of land (the land on which the Fiske block stands), and immediately before the erection of said brick building thereon, she, the said Amanda J. Marceau, did have in contemplation the excavation of said angle of land and the construction therein and thereupon of a large, costly, commodious and waterproof underground cellar to underlie said brick building and upon which to erect the same; and pursuant to said contemplation as aforesaid, the said Amanda J. Marceau did authorize and cause one John D. Fiske, on or about said 2nd day of September, to solicit and petition the said city of Fresno, one of the defendants herein, through its duly elected, qualified and acting board of city trustees, sitting in regular session then and there, for permission to excavate a small portion of the sidewalks adjacent to, along and outside the walls of said building abutting on the said boundary lines of said streets, and to construct and maintain in said excavations small, rectangular open areas with stairways therein leading from said sidewalks to said cellar. Said areas being intended for the purposes of ventilation and illumination of said cellar and for the further purpose of intercommunication between said streets and said cellar.

Upon said solicitation and petition as aforesaid a majority of said board of city trustees, in regular session, directed said John D. Fiske to file with the clerk of said board, for its information and benefit, plans and specifications of said areas desired. Said plans and specifications were, among other things, directed by said board to show said areas with a width of not more than four feet and with iron railings of not more than three feet high inclosing said areas. And thereafter said plans and specifications so desired were filed with said clerk.

And thereafter and thereupon, on or about September 23d, said board of city trustees, sitting then in regular session within the limits of said city, and after due and careful examination of said plans and specifications, did by its resolution duly given or made, give and grant leave and permission to said Fiske to excavate, construct and maintain said areas according to the plans and specifications on file with said clerk as aforesaid.

Pursuant to contemplation and intention as aforesaid, and in consideration of the said permission and leave granted to excavate construct and maintain said areas as aforesaid, said Amanda J. Marceau did cause said areas to be excavated and constructed in accordance with said plans and specifications on file in the office of said city clerk of said city of Fresno, and did cause said proposed cellar to be excavated and constructed in the manner and of the character hereinbefore expressed at great cost and expense, to wit $15,000, and thereupon did cause to be erected said brick building commonly known and designated as the "Fiske building" at a great cost and expense, to wit, $50,000.

The complaint next gives the particulars connected with the tearing down of the railings, stating it was illegally and wrongfully done on the order of the board of trustees, and that the areas were covered with unsightly planks, thus cutting off inter-communication between the street and cellar, and excluding illumination and ventilation. By reason of this the plaintiff, Amanda J. Marceau, alleges she was damaged in the sum of $15,000. She alleges further that she has been uncalled damaged in the additional sum of $10,000, by reason of the depreciating and repulsive appearance which the said rough, loose and unsightly planks have imparted to the comely architectural design and appearance of said brick building, thereby impeding and depreciating the value of said boil ing and the rental of apartments therein.

The plaintiff, said Amanda J. Marceau, further alleges that defendants contemplate and intend further wrongful interference with said areas, cellar and building, which will cause said Amanda J. Marceau great and irreparable injury, and therefore prays judgment against defendants for the total sum of $25,000, for an order permanently restraining defendant's interference with the maintenance of said areas, and for costs of suit.

"ALABAMA."

A Play for the People on Monday Evening.

The war element in "Alabama" is purely reminiscent. It deals more directly with scenes and actions that illustrate the peace and prosperity following in the nature of the bitter conflict. There is not a line of sectionalism in "Alabama." Its sentiment appeals alike to the south and north, to New England as to the Pacific coast, and the characters are true men and women of the south and north. It is a pictorial protest against the war feeling. All the people in "Alabama" are loveable except one, and he is a villian of a very mild type.

STUD POKER.

The Game Still Running in Full Blast.

WHAT GAMBLERS SAY OF IT

Probability That the Matter Will Be Taken Before the Grand Jury.

The stud poker games were running as usual in the accustomed places last night.

The majority of the players were "boosters" or "suppers," by which terms are meant men who for 50 cents or $1 a night are hired to play at the game for the purpose of making business appear lively so that bona fide players might be tempted to engage in a game in which there is no bank to play against, but in which the representative of "the house" takes down about a third of every pot as percentage.

The longer the players sit at the table the poorer they become, for it is their own money that goes into the drawer. All that they get out of it are the drinks and cigars. Cards which cost the house 5½ cents per pack are sold to the players at 50 cents per pack, and many fresh packs are called for in the course of an evening's game.

It is a common saying among gamblers that no one but a "sucker" would play stud poker or hokey pokey.

The word "sucker" is a synonym for a gullible person.

Among the few suckers seen around the tables last night were a dentist, one or two clerks and two or three ranch hands.

Gamblers admit that stud poker is a percentage game and one of the games prohibited by the statute, but the authorities have allowed it to be played and openly on the ground floor of saloons and other places and in full view of the patrons of those places.

It is said that the proprietors of these games, which are more profitable than faro layouts, have too much political pull on the eve of a county election to be molested.

Whether this be true or not the fact remains that the games are unmolested, and the present city and county administration must bear the brunt of the infamy that attaches to this affair.

The special grand jury will meet on Monday next to consider the train robbery cases. They are also empowered to inquire into the gambling question or any other matter of violation of law that may be brought before them. Judge Harris is the authority for this statement.

It is to be hoped that an inquiry may be made and the responsibility fixed as to why faro was allowed to be played in this city until a few days ago and as to why stud poker has been allowed to make insolvents and bad debtors all the time.

It is understood that a list of dealers, proprietors and players, together with other data, will be laid before the grand jury.

Then probably stud poker will be discontinued.

A Good Republican Gun.

One of the very best Republican guns for this 1892 campaign, or any other campaign' is E. V. Smalley's "History of the Republican party." It is much more than a mere campaign book, in fact is a most valuable history, for every citizen of every party. It deals with the history of parties from the foundation of the government down to the present year, giving brief sketches of the most noted leaders, every Republican platform from the first to the last, and a vast fund of valuable information. It appeals especially to the thinking voter, every one of whom ought to read it. Of course no worker in the campaign is equipped without a copy of it, more than a carpenter would be without his saw, or a hunter without his gun. Mr. Smalley is a writer of rare ability, a long time intimate friend of Garfield, Blaine and other leaders, staff correspondent of the New York Tribune, etc., and thus richly fitted for writing such a work. Another good thing about the book is that it is issued by the famous publisher of cheap books, John B. Alden, 67 Rose street, New York, and therefore to be had at a low price, only 50 cents postpaid. His catalogue, over 100 pages, of choice books to be had for 2 cents ought to be in the hands of every lover of good books.

Don't All Go at Once.

The third annual reunion and picnic of the Western Association of California Pioneers in observance of Admission Day will be held at Washington park, Chicago, on Friday, September 9, 1892. A hearty invitation is extended to all Mexican veterans to meet with the pioneers on this occasion.

FANCHER CREEK.

THE GRAND NURSERY THE PRIDE OF FRESNO.

Hundreds of Thousands of Trees of the Choicest Varieties for Profit and Show.

In the heart of the fertile belt that extends eastward from the city of Fresno, covering 640 acres of land under a high state of cultivation, and looking, with its broad shaded avenues and magnificent orchards, one of the prettiest pictures in nature's gallery of masterpieces, lies the famous Fancher Creek nursery.

Along the road that leads from Fresno to Roeding's, may be seen the most prolific vineyards in the world. The broad acres of Malters', Eisen's and the Fresno Vineyard company's tracts are covered with vines and fruit trees that give color to the landscape and remind one of "that delightful province of the sun" described in Moore's Lalla Rookh, although that region could scarcely have rivalled in beauty and attractiveness this favored section of Fresno county.

Passing Osthout's vineyard, where the rabbit-infested plains have so recently been transformed into a vine-covered garden, one reaches the avenue, lined with elms and palms, that leads to the Roeding residence. The houses, nine in all, are built on a knoll that rises in the middle of the grounds to a height of about twenty-five feet.

The residence is solid, commodious and architecturally ornate. The other buildings are the tank house, barn, office building, packing house, tool house, eating house, and the boiler house in which there is a large hot water heater for heating the extensive green house and propagating house during the winter months.

There is also on the place a gas engine and a gas machine of sixty lights capacity, which furnishes light for all the buildings.

The grounds around the house are devoted to various ornamental plants, surrounded by an orange orchard, the whole inclosed by a one-half mile circular driveway lined with umbrellas and palms.

A bridge crossing Fancher creek leads to the nursery proper. Here are first found a block of 60,000 figs, mostly Smyrna and wild and assorted varieties.

Then follows a block of olives, including Nevadillo, Manzanillo, Ruhra and Picholine; a block of 60,000 apples, summer and winter, including the Lawver red winter apple, which is very popular wherever it has been tried.

There are also 60,000 pear trees of Bartlett, winter Nelis and assorted varieties.

One piece of land contains 250,000 trees, including nectarines, peaches, almonds, apricots and prunes, and on a block which has never been irrigated there are Tragedy prune trees, six months old from the bud, that stand twelve feet high.

ORNAMENTAL TREES.

In ornamental trees there are on the place, of deciduous trees, the umbrella, maple, ash, walnut, locust and elm; and of evergreens, palms, oleanders, roses, pines and Himalaya cedars, all of a vigorous growth. Thirty acres are in seedlings, and 750,000 trees are now being budded.

The grand orchards cover 200 acres, mainly in figs and olives, the remainder being devoted to various varieties of fruit trees, which are used principally for taking buds and scions to graft and bud young trees in the nursery.

FAT FIGS.

The manager takes particular pride in the fig orchard, which contains eighty acres, mostly in Smyrna and White Adriatic figs.

There are also twenty varieties now in bearing, partly for experimental purposes. One tree in particular had a number of matured Smyrna figs which were produced by fertilization with a toothpick, the pollen having been taken from the capri or wild fig on the end of a toothpick and inserted in the orifice of the Smyrna, producing results already mentioned. On the ground about the tree lay hundreds of small figs which had dropped prematurely, they not having been subjected to the fertilizing process.

THE OLIVES.

Seventy-five acres are in olives with 5000 trees, most of which were planted three years ago. A number of 7-year-old trees are now in full bearing, all of them loaded down with fruit, although they had received a very severe pruning.

All varieties seem to do equally well. The manager particularly recommends the Nevadillo and Manzanillo, both of which have been extensively planted in the orchard. Two of the varieties growing the largest fruit, called the Macrocarpa and Polymorpha, are called by importers Queen olives, on account of their large size.

One variety in particular, the Rubra, had more fruit than leaves, and the branches touched the ground.

In the nursery there are 500,000 grape vines, mostly raisin and table grapes.

This great enterprise is under the management of George C. Roeding, who attends personally to the business of the nursery and the propagation, care and development of the plants. Fancher Creek nursery is an institution of which Fresno is justly proud.

A COOL BURGLAR.

HE APPEARS IN THE STREET WITH STOLEN CLOTHES,

Then Returns to Wiener's Barn, Changes the Clothing and Escapes.

Several nights ago the residence of A. J. Wiener, of Wiener's stores on I street, was entered by a burglar, who made away with four suits of fine clothes belonging to that well clothed merchant.

Mr. Wiener reported his loss to the police and suspicion attached itself to a man who had been seen hovering about the house. Yesterday afternoon Mr. Wiener's hired girl saw a man with a valise going into the barn in Mr. Wiener's back yard. She at once notified her employer who called Policeman Grady to his assistance.

At the time the man went into the barn he was wearing a coat and vest which the girl recognized as being a part of the stolen property. Mr. Wiener and the policeman examined the contents of the valise and found that it contained the missing clothes. The thief had taken off the Wiener coat and vest in the barn and had resumed his own clothing.

The thief was seen at noon in front of the Grand Central hotel, wearing the stolen garments, but disappeared before the party who identified them could summon a policeman.

It is believed he has gone to Selma, and a telegram was sent to the authorities of that place to arrest him. He will propably be caught today as he is well known to the police, having formerly worked on John Grady's ranch.

CROP BULLETIN NO. 12.

For Week Ending August 22—New Vine Disease.

United States Department of Agriculture, Weather Bureau.

The weather has been cloudless, with temperature 7 degrees above normal, which is ripening the grapes rapidly.

Malagas are being shipped.

Fruit drying is nearly done and has been fairly successful and profitable.

It is estimated that the cannery at Fresno will ship over 200 carloads of canned fruits.

There seem to be a large number of vines dying the past week and the cause is being investigated by the expert of this department, to whom samples of vines and soil have been sent. Every vineyardist has a theory of the cause of the trouble, but none of them seem to hit the cause.

Highest temperature for the week, 112; lowest temperature for the week, 56; range of temperature for the week, 56.

J. R. WILLIAMS,
Observer U. S. Weather Bureau.

ACCIDENTALLY SHOT.

Emmet Ewing's Leg Broken by a Pistol Ball.

Emmet Ewing, bartender in the Lone Star saloon in Chinatown, accidentally shot himself with his pistol yesterday afternoon.

The bullet struck him on the inside of the left leg immediately above the ankle, shattering the bone and causing a most painful wound. Dr. Spenogle was called in and dressed the injured limb. If gangrenous ulceration does not set in Ewing's leg may be saved from amputation.

The statement was made that Ewing was handling his pistol and, becoming careless, pressed upon the trigger and accidentally discharged it.

MRS. ROBERT BARTON.

A Change for the Better Reported in Her Condition.

Mrs. Robert Barton of this city, who has been dangerously ill for the past five weeks, has removed from San Francisco to Oakland and is reported to be in a fair way towards recovery. Her ailment is of a neuralgic and nervous type, aggravated by business anxieties.

Dr. Mures, her physician, urges quiet and rest both of body and mind as being absolutely necessary to insure her recovery. Her many friends in this county have been seriously alarmed on account of her condition, and they will be relieved to know that with the good care which she is receiving now she may regain her former health and strength.

Mrs. S. C. Pancake's Death.

Mrs. S. C. Pancake died last Tuesday at 4 o'clock at the family residence, corner of L and Merced streets.

The deceased was 66 years of age and had lived in Fresno about a year and a half, coming here with her husband from Salt Lake city, Mrs. Pancake was born in Coshocton county, Ohio, and leaves a husband and nine children.

Three daughters are residents of Salt Lake, one daughter lives in Wellington, Ks., and the remaining four children are residents of Fresno—Mrs. W. F. McVey, Mrs. Allie Connell, Stewart Pancake and Jackson Pancake.

The funeral was conducted from the family residence yesterday afternoon at 4:30 o'clock, Rev. E. McIntier conducting the services.

Selma Fruit Shipments.

These are indeed halcyon days for the Selma fruit ranchers, says the Irrigator. A. Gartenlaub, the enterprising fruit shipper, informed an Irrigator representative today that he would ship thirteen carloads of dried fruit tomorrow from Selma and adjoining towns to points east. He has already shipped three carloads and with the thirteen to be shipped tomorrow will bring the total up to sixteen carloads or 336,000 pounds of dried fruits—peaches, apricots and prunes—representing a cash value of over $40,000. Four carloads go from Fowler, one from Traver and the balance from Selma.

The Cholera Coming.

NEW YORK, August 24.—Quarantine officials at this port are busy preparing to prevent any importation of cholera from infected European ports. Orders have been given to have the fever ship ready for hospital use in the lower bay. Five vessels are due this week from Hamburg, where the cholera is now raging, having about 2000 immigrants aboard. They will be detained at quarantine and thoroughly examined.

The French line steamer La Touraine, which left Havre last Sunday, is due here Saturday. The vessel will be duly subjected to quarantine regulations on her arrival.

GUARDSMEN PRAISED.

Major General Dimond Issues General Orders No. 5.

Major General Dimond, N.G.C., has issued general orders No. 5, in which he announces official approbation of the recent encampment.

General Dimond, who was division commander, expresses himself as well satisfied with the work and conduct of the soldiers at the encampment.

"In prompt and willing attention to military duty, in cheerful submission to military restraint, in unwavering observance of military discipline, in courteous recognition of distinctions in military rank, in gentlemanly conduct, in sobriety, and, last but not least, in faithful drilling and ceremonies you showed yourselves soldiers in reality, deserving the highest commendation of military critics. The success of Camp Columbus was of your making, and to you belongs the praise rightly due therefor.

"This encampment was intended not only as a school of instruction, to afford the National Guard of California an opportunity of testing itself, of discovering its deficiencies and correcting them, and of developing its strength, but also as an exhibition to the state of its citizen soldiery. In all these respects it has been eminently successful, and should instill throughout the commonwealth a feeling of confidence that the National Guard is both able and willing to perform any duties required of it, and can be relied upon to preserve the peace and quiet of the state whenever called upon for that purpose."

Captain C. Chisholm, of Company F, also extends sincere thanks to those members of his company who attended the encampment for their promptness at drill, soldierly bearing and gentlemanly conduct while in camp.

It is likely that in view of the excellent showing made at this camp the next legislature will be asked to increase the appropriation for the National Guard, which is now entirely inadequate.

Fine Fruit Wanted.

Samples of fine fruit are solicited at the office of the World's Fair commission in the Hughes hotel building at any time between 9 a.m. and 5 p.m., Sundays excepted. The jars of fruit which have been removed from the office to the basement of the Hughes block have benefited largely by the change from warm to cool quarters, and the preservative fluid which showed signs of fermentation during the hot weather has cleared and the fruit retains its natural color.

Ayer's Hair Vigor
Makes the hair soft and glossy.

"I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have ridden the plains for twenty-five years." —Wm. Henry Ott, *alias* "Mustang Bill," Newcastle, Wyo.

Ayer's Hair Vigor
Prevents hair from falling out.

"A number of years ago, by recommendation of a friend, I began to use Ayer's Hair Vigor to stop the hair from falling out and prevent its turning gray. The first effects were most satisfactory. Occasional applications since have kept my hair thick and of a natural color."—H. E. Basham, McKinney, Texas.

Ayer's Hair Vigor
Restores hair after fevers.

"Over a year ago I had a severe fever, and when I recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to use Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color."—Mrs. A. Collins, Dighton, Mass.

Ayer's Hair Vigor
Prevents hair from turning gray.

"My hair was rapidly turning gray and falling out; one bottle of Ayer's Hair Vigor has remedied the trouble, and my hair is now its original color and fullness."—B. Onkrupa, Cleveland, O.

A Golden Opportunity for Political Prophets

THE PLAN.

In order to encourage a lively interest in political affairs on the part of the people of Fresno county and Central California, THE REPUBLICAN has decided to offer a number of very valuable premiums to those of its subscribers who can most correctly estimate the result of the November election.

One Quarter Acre Lot

THE FIRST

And most valuable Premium will go to the subscriber naming the next President of the United States and making the closest estimate of the popular plurality. The premium is one Quarter Acre Lot in Florence Addition.

Florence Addition adjoins Fresno City on the south, between Santa Clara and Elm avenues, is well built up and on the line of the proposed Electric Railway. Lots are selling in the neighborhood for $250 and $300 each.

2 Lots in Sanger Heights

The Second and Third Premiums

Will be awarded to the two subscribers who name the next President of the United States and give the electoral majority. Should more than two subscribers name the next President and estimate correctly the electoral majority, the two responding earliest will be awarded the premiums. The Second and Third Premiums consist of two lots, Nos. 21 and 22, in block 170 of Sanger Heights, close to the Sanger school house. Lots valued at $125 each.

Victor Credenda Bicycle

The Fourth Premium

Will be awarded to the subscriber whose estimate comes nearest to the plurality for Presidential electors in the State of California and who states which set of electors will carry the state. This Premium is an elegant new Victor Credenda Bicycle, valued at $95. This is a thoroughly reliable Safety Bicycle, guaranteed by the Overman Wheel company. The winner will have the privilege of selecting either Ladies' or Gentleman's pattern. Catalogue may be seen at Bishop & Greeley's, opposite REPUBLICAN office.

White Sewing Machine

The Fifth Premium

Will be awarded to the subscriber whose estimate comes nearest to the plurality given in Fresno county for Presidential electors, and who states which set of electors will carry the county. The Premium is a new "White" Sewing Machine, the best made, in Hungarian ash, with all attachments. Value $70.

Hunting Outfit.

The Sixth Premium

Will be awarded to the subscriber who names the next Sheriff of Fresno county and estimates most closely his majority. The Premium is a Hunting Outfit, consisting of one Pieper Shotgun double barrel, breech loading, fine twist barrels, side snap, 10-gauge, choke bored and reinforced breech. One oilited lignum-vitæ wood cleaning rod, nickle plated tips. Reloading tools. One Victoria gun cover, lined throughout, leather capped with handle and sling. One brown canvas hunting coat, six pockets and sleeves. Twenty-five brass shells, best quality. Value $50. The outfit may be seen at Warnekros', Pioneer Gun Store, Fiske building, Mariposa street.

Lady's Gold Watch.

The Seventh Premium.

Will be awarded to the subscriber naming the successful candidate for County Clerk of Fresno county and estimating most closely his majority. This premium is a Lady's Gold Watch, valued at $35. It is on exhibition at Peters' Jewelry Store, J street.

Gentleman's Gold Watch.

The Eighth Premium

Will be awarded to the subscriber naming the successful candidate for County Recorder of Fresno county and estimating most closely his majority. This premium is a Gentleman's Gold Watch, valued at $35.

Hammock Cart.

Special Premium.

A special Premium has been added to the list of REPUBLICAN Election Estimate Awards.

It will be given to the subscriber naming the next United States Senator from California and making closest estimate as to political complexion of both houses of the next Legislature.

It is a new Hammock Cart, which possesses all the advantages of a buggy and has positively no shaft motion. Durably constructed, safe, handy and elegant. Value $80.

CONDITIONS.

No subscriber to receive more than one premium. Stockholders and employes of THE REPUBLICAN debarred from participation.

Subscribers who take part in the contest must be paid up, on Daily to November 1, 1892, or on Weekly for one year in advance of date of making estimate.

New subscribers to Daily, who hand in estimates after July 1st must prepay for six months.

The contest to close on November 1, 1892. Premiums to be awarded immediately on receipt of official returns.
